

Moodle System Update Message

Attention All Foster/Adoptive Parents –

Official documentation of your completed training is maintained by the Home Development Office serving your area. For any courses that are administered through the LCWTA LMS (moodle.lcwta.org), LCWTA automatically reports your completed training to your Home Development Office and your course completion records typically appear within 3 weeks of completing a course in the LMS.

Please note that your Home Development Worker may still require you to download and send completed certificates to them for verification.

Heads up! A Moodle system update is coming soon (July 2024), so be sure to download all of your certificates by **June 30, 2024**. *You will not be able to access your certificates in Moodle after June 30, 2024.* But don't worry as your official transcripts will be available to your Home Development Office.

We strongly recommend downloading and saving your certificates for your records. Downloading your certificates ensures you have personal documentation of your accomplishments.

Just a reminder, completing the post-test is mandatory to receive your certificate. You can re-download any of your certificates by visiting the [My Certificates](#) tab in your Moodle menu.

If you have any questions or need assistance with certificates, please contact our support team : support@lcwta.org | 985.248.0888 (MON-FRI | 8AM – 4PM)
